

## Imagine Another You

It is 10 years in the future (2028). You live in an AI saturated world. You are walking down the main street. You are not yourself. You are a person whose life experiences you perceive as very different from your own.

### Describe/draw the person and their environment.

- Who are they?
- What do they look like?
- What does the environment look & feel like?
- Where does AI intersect their world?
- How are they affected?
- How do they navigate this world?
- Where is empathy necessary?

You are not yourself. You are a person whose life experiences you perceive as very different, even opposite\*, from your own
